How can we help your business?

We create custom immersive training programs, with scenarios of your company experienced in real life, so your team can gain experience and self-confidence. With virtual reality you save time, money and learn faster.

WHY PANIC LOBSTER?

Panic is the feeling that many people express when they are in public speaking situations. Lobster, is in honor of the Mantis Lobster, owner of the most complex eye sight of the animal kingdom. Besides that, when we talk in public it is common to have a reddish face, looking like a Lobster, Isn't it? So why not a fun name as we believe in having fun while learning.
